SILETZ VALLEY SCHOOL REQUEST FOR PROPOSAL:

Siding Removal and Replacement

Project Overview

Siletz Valley School is seeking qualified contractors to provide all labor, materials, equipment, and supervision necessary to repair, prepare, and paint the south-facing exterior wall of the school's Woodshop building. The goal of this project is to improve the structural integrity, weather resistance, and overall appearance of the facility

SPECIFICATIONS: Siding replacement at Siletz Valley School, 245 NW James Franks Ave, Siletz, Oregon 97380.

Scope of Work

Woodshop:

The selected contractor will be responsible for completing the following work:

- Remove existing siding, including removal, clean up and dump fees.
- Install 1200 sq ft of vapor barrier and 1200 sq ft of 9.25" Hardiplank on the South walls with stainless steel flashing installed with stainless steel ring shank nails.
- Properly clean and prepare all surfaces for painting
- Prime bare surfaces with an appropriate exterior-grade primer
- Apply Sherwin Williams WoodScapes exterior stain (minimum of two coats) suitable for local climate conditions
- Ensure all work meets industry standards and manufacturer specifications
- Protect surrounding areas, including adjacent structures, walkways, and landscaping
- Perform daily complete site cleanup to maintain a safe environment for students and staff.
- Additionally, The bid must include a square footage price to replace any potential unsuitable underlayment discovered during the project. This additional work will be agreed upon prior to any repairs to be undertaken.

The contractor is responsible to confirm the square footage of the project.
